

FASTRACK

Fastrack[®] Equine Microbial Pack

The health and performance of your horses depends upon many factors such as genetics, nutrition and management. The new Fastrack[®] Equine Microbial Pack gives you, a product designed exclusively for horses to complement the nutrition and management provided to your horses.

Fastrack Equine Microbial Pack contains a special blend of lactic acid-producing bacteria, yeast culture, enzymes and dried chicory root. This special equine formulation contains additional enzymes to further boost the breakdown of nutrients for pleasure and performance horses. Use in combination with the other Fastrack products for best program results.

Ideal for use with:

- Growing Horses
- Mature Horses
- Performance Horses
- Breeding Horses
- Senior Horses

Directions for use:

Horses: Supplement at the rate of 1 to 2 ounces per horse daily.

Minimum Guaranteed Analysis Per Ounce: Total lactic acid-producing bacteria activity: 2.5 billion colony-forming units from (*Enterococcus faecium*, *Lactobacillus acidophilus*); Acid protease from *Aspergillus niger* not less than 150 acid protease units; Bromelain from pineapple not less than 400 gelatin digestion units; Cellulase from *Trichoderma longibrachiatum* not less than 5,000 cellulase units, Fungal amylase from *Aspergillus oryzae* not less than 1,250 sanstedt blisch units; Fungal protease from *Aspergillus oryzae* not less than 3,500 hemoglobin units; Lipase from *Candida rugosa* not less tan 150 international standard units.

Ingredients: Yeast culture (*Saccharomyces cerevisiae*), rice hulls (10 percent), calcium carbonate, dried chicory root, dried *Enterococcus faecium* fermentation product, dried *Lactobacillus acidophilus* fermentation product, dried *Aspergillus oryzae* fermentation extract, dried *Aspergillus niger* fermentation extract, pineapple, dried *Trichoderma longibrachiatum* fermentation extract, dried *Candida rugosa* fermentation extract.

Keep Cool: Store in a cool, dry place
